

A Level Results – Longcroft Sixth Form College

A Level and BTEC students at Longcroft School and Sixth Form College have enjoyed considerable success in their examinations with 50% of students achieving at A* - B grade. 29% of students were awarded grades at A* and A. We are very proud of all of our students. There were also some exceptional individual performances notably Phoebe Ankrett who achieved three A* grades and Josie Hobson with three A grades.

This overall success is down to the hard work of the students and the high quality A Level teaching that is being embedded at the school. Our students are going on to a wide range of universities and further study including Bath, Newcastle, Nottingham and Sheffield and courses as diverse as Chemical Engineering, Interior Architecture and Midwifery.

I would like to congratulate the students, thank the teachers for their hard work and extend our gratitude to Parents who have supported the students throughout. This has been a year of great change in our school as students and staff prepare to move into our brand new building. We are pleased to see that the students continue to have high aspirations and are securing the university place of their choice. Indeed it is a pleasure to see so many happy students as we continue to build on this success with the opening of our new Sixth Form facility this academic year.

Mrs Z Holland

Head of Sixth Form

Josie and Phoebe celebrating A level success. They are looking forward to studying Chemistry at Bath University and Midwifery at the University of Hull

Elliot, Tom, Gemma and Harvey celebrate their excellent results
